# COMFORT-4 BATTERY THERAPY CHAIR

## WITH VARIABLE HEIGHT & BATTERY BACK-UP

### Electronic adjustments

Multiple independent adjustment possibilities offer maximum patient comfort, plus a reduction in work for staff. (5 motors)

- backrest
- seat tilt
- legrest
- seat height
- motorised footrest

### Tilt-up armrest

The solid upholstered armrest makes it possible to achieve the most suitable and restful arm position for any physique.

It can be adjusted in height and entry is facilitated by simply tilting it up. The distance between armrests can be adjusted also

by swivelling completely.

(48 or 60 cm)

The multilayered soft armrest cushion ensures improved patient comfort.

### Exchangeable upholstery

Can be removed easily with a few movements for cleaning or maintenance.

It has been designed according to the latest developments in orthopaedics and ergonomics.

Blood resistant artificial leather, which is resistant to disinfectants too.

### Motorised footrest

The patient can adjust the position of it at any time.

### Entry position

Electronic height adjustment and Tilt-up armrest allowing the patient to easily enter or leave the chair

### Trendelenburg position

The backrest adjusting range ensures that the patient's head is lower than the circulatory centre point of the body in compliance with EN 60601 Medical Standard

\* Chairs in the photo involve some optional elements

### Full operation from battery

- Audio alarm in case of power failure
- Charge active LED on handset

### Easy-to-use 13 buttons handset

Automatic buttons

- One button operation for "Entry", "Bed" and "Trendelenburg" position

- Long-life micro-switches are located under an exchangeable keypad foil
- Especially designed for medical applications
- IP 67 Waterproof housing
